## EDUCATION

- Full Stack Web Development**  
Masai/Bangalore  
July 2024-present
- Master in Computer Application**  
Sister Nivedita University  
September 2022 - May 2024
- Bachelor in Computer Applications**  
Techno Main SaltLake  
June 2019 - May 2022

## TECHNICAL SKILLS

MongoDB | Express.js | Node.js |  
React | JavaScript | CSS3 | HTML5 |  
MySQL | java

## SOFT SKILLS

- Effective Communication
- Adaptability
- Time Management

## INTERESTS

Swimming | Drawing | chess

## CERTIFICATES

Edufebrica Summer Training  
and Internship in Full Stack Web  
Development  
EduFabrica Pvt. Ltd.

## PROFESSIONAL SUMMARY

Full Stack Web Developer proficient in JavaScript and the MERN stack, specializing in creating scalable APIs and integrating Generative AI solutions. Recognized for quickly adapting to new technologies and effectively solving complex problems in collaborative environments to develop user-friendly web applications.

## PROJECTS

1. DocMeet - Doctor Appointment Booking System

React | JavaScript | Nodejs | CSS3 | Express.js | Node.js

  - Developed a comprehensive booking system for doctor appointments using React, Node.js, and Express.js.
  - Implemented user registration, authentication, and profile management with advanced filtering options for doctor search.
  - Designed scalable backend APIs using Node.js and Express.js.
  - Ensured seamless integration of frontend and backend components.
2. Sorting Visualizer Web Application

JavaScript | HTML5 | CSS3

  - Developed an interactive web application to dynamically visualize sorting algorithms including Bubble, Selection, Quick, and Merge sorts.
  - Implemented customizable array size and dynamic visual representation to enhance user engagement and understanding.
  - Leveraged HTML5, CSS3, and JavaScript for efficient frontend development and seamless user interaction.
  - Conducted thorough testing and debugging to ensure application reliability and stability for an optimal user learning experience.
3. Quiz game

React | Axios | HTML5 | CSS3

  - Developed a dynamic and interactive quiz application with customizable quizzes using React.
  - Integrated the Open Trivia Database API to allow real-time loading of quiz questions.
  - Implemented responsive design principles to ensure optimal user experience across devices.
  - Utilized Axios for efficient API requests and data handling within the application.
  - Focused on maintaining seamless frontend functionality for customizable user interactions.
