PROFILE SUMMARY

Frontend Developer with hands-on experience as an Email Developer, backed by strong knowledge of the MERN stack. Skilled in building responsive, user-focused interfaces using React, JavaScript, and modern UI practices. Experienced in collaborating with design and marketing teams to deliver scalable, high-quality frontend and email solutions, with a growing focus on full-stack application development.

EXPERIENCE

- **Developer — Publicis Groupe (Oct 2025 – Present)**
    - Develop responsive, cross-client email templates using HTML, CSS, and JavaScript.
    - Collaborate closely with design and marketing teams to ensure brand consistency and performance optimization.
    - Apply frontend best practices from React and modern UI development to improve code quality and scalability.
    - Actively build and maintain MERN stack projects to strengthen full-stack development expertise.

SKILLS

Programming: Java, JavaScript , Python
Frameworks: React, Express.js, Node.js
Databases: MongoDB, MySQL
Tools: Git, VSCode
Soft Skills: Effective Communication, Adaptability, Time Management

EDUCATION

- **Masai School** — Sep 2024 – June 2025
  Full Stack Web Development — *Bangalore*
- **Sister Nivedita University** — Sep 2022 – Jul 2024
  Master of Computer Application (CGPA: 7.85) — *Kolkata*
- **Techno Main Salt Lake** — Jun 2019 – Jul 2022
  Bachelor of Computer Application (CGPA: 9.3) — *Kolkata*

PROJECTS

- **CodeAuditAI – Code Reviewer & Executor**
    - **Tech Stack:** React, Node.js, Express.js, Monaco Editor, Google Gemini AI, Piston API
    - Developed a smart code reviewing platform that accepts code in multiple languages and provides AI-generated feedback using Google Gemini.
    - Integrated Monaco Editor to mimic VS Code experience with syntax highlighting and error detection.
    - Enabled real-time code execution using Piston API and displayed output/errors in the browser.
    - **Live:** code-audit-ai-ai-code-reviewer.vercel.app — **GitHub:** github.com/ayeshashaw/CodeAuditAI-AI$_{Code_Reviewer}$

- **DocMeet – Doctor Appointment System**
    - **Tech Stack:** React, Node.js, Express.js, MongoDB, Cloudinary
    - Built a full-stack application for online doctor booking with separate dashboards for doctors, patients, and admins.
    - Implemented secure authentication using JWT tokens and protected routes with role-based access control.
    - Integrated Cloudinary to handle image uploads for doctor profiles and health records.
    - Designed RESTful APIs for appointments, profile updates, and schedule management.
    - **Live:** docmeet-g0lg.onrender.com — **GitHub:** github.com/ayeshashaw/DocMeet$_{Doctor_Appointments_Booking_System}$
